GOAL would like to see the following issues addressed in the response:

- Rates should be inclusive with taxes and transportation cost (loading/unloading).
- Goats must be delivered within time specified in Purchase Order / agreement @ the following villages Borno North, Borno South, AL Debekaya, Damiq East, Damiq West, Keiga Jaro, Keiga Tumero, Alguqba and Kida& Kolo). Kadugli, Talodi/Rashad as per details in **Appendix 4**.

- The vendor will be responsible to supply goats of said age and race **as per specifications laid out within this document / purchase order/agreement**. All delivered goats will be received and checked by a veterinary doctor, GOAL will only receive goats certified by the vet and the one's that do not meet our requirements will be rejected and sent back to vendor/supplier/contractor

Below is the selection and distribution plan for female and male goats

- **For Female goats:** (suppliers to supply local breed female goats)
 - Step 1: Suppliers provide quotation with # goats available, price, and date available in the specified locations
 - Step 2: Bid opening. Because multiple suppliers may be required to meet the total number of goats offered (especially for female goats), the tender committee upon evaluation of bids will make a recommendation for the # goats accepted from each supplier. This will be pending confirmation by vets in Step 3.
 - Step 3: Suppliers bring female goats to agreed location (per each lot / supplier). Committee including Vet department team, Village Development Committee, and GOAL staff certify each goat meets the specifications, and choose the goats. Committee also identifies "A, B, and C"-grade goats within those meeting the specifications and selected. Vaccinations and de-worming are provided at this stage and documented.
 - Each goat, once accepted, will be marked with specialized paint and marking to identify it as a selected goat
 - Initial confirmation of # goats accepted per supplier will be signed at this stage with each supplier
 - Goats remain with supplier and under their care / feeding until distribution to beneficiaries.
 - Step 4: The next day (or if it can be arranged, later the same day), Village Development Committees and beneficiaries arrive to distribution location. GOAL/Vet committee verifies each goat has the correct marking / tag. VDC assigns one A, one B, and one C to each beneficiary family.
 - Final GID signed at this stage, allowing suppliers to invoice GOAL.
 - Step 5: Step 4 repeated in all locations for each female goat lot
- **For Male goats:** suppliers to supply the specific breed requested, as the purpose is to introduce more genetic diversity.
 - Step 1: Goats will be checked in supplier location by vet department veterinarian and, if vaccination / deworming certificates not yet provided by supplier, needed treatments will be provided then. Each accepted animal will be marked / tagged to indicate acceptance, and initial confirmation of # goats supplied, and price will be signed by all parties (GOAL, Vet, Supplier). Pictures will be taken of each accepted goat including marking.
 - Step 2: Supplier will be responsible for transportation of live, healthy animals to distribution location. Upon arrival, the vet department and GOAL committee will confirm the goats are live and healthy, and that they are the same goats as accepted in Step 1, using markings and photographs. Once these are

confirmed, GID will be signed at this stage. Any case of death or health concerns by veterinarian will be reported immediately to supplier by GOAL, and supplier will provide replacement delivered to distribution location.

- Step 3: GOAL will contract with local supplier / vet department to care for / feed animals for 2-3 days to rest from the journey and adapt. After final check the male goats will be distributed to communities by GOAL.
- All chosen goats must be certified by the veterinary doctor before being accepted by GOAL
- GOAL will facilitate the vendor by hiring a veterinary doctor for vaccination and certification at each delivery point/location. Distribution Plan will be shared with selected vendor. The goats which would not fall under the criteria would be returned to the vendor from vaccination and certification point
- In case of death during travel or any disease/sick goat, GOAL will stop payment and send it back to vendor and loss will be borne by vendor, goats accepted should be free of diseases for at **least 3 months** after delivery otherwise goats will be returned and a new goat must be supplied in its place.
- Vendor will be liable to consider and accept any changes based on observations of organization, on the age limits already provided and quantities for each (male or female).
